SUMMARY

Full stack .NET developer with 4 years 9 months in wealth management, banking and lending. Front ends in Angular and React, back ends in .NET 8 and older .NET Framework 4.x. Now at NeoSoft for Motilal Oswal, working on the RM Portal after building the AI chatbot, both used by 500+ relationship managers (RMs). Based in Mumbai, open to Pune.

SKILLS

Backend: C#, .NET 8, .NET Core, .NET Framework 4.x, ASP.NET Core Web API, ASP.NET MVC, REST APIs, Microservices

Frontend: Angular 18, TypeScript, JavaScript, RxJS, NgRx, React, Next.js, HTML5, CSS3

Data: SQL Server 2019, PostgreSQL, T-SQL, Entity Framework Core, LINQ, stored procedures, pgvector

Cloud: Azure App Service, Azure Functions, AWS EC2, AWS S3, AWS Lambda, Docker, Kubernetes basics

DevOps and Testing: Azure DevOps CI/CD, Git, TFS, xUnit, NUnit, MSTest, Moq, Jasmine, Karma, Postman

Practices: Design patterns (Repository, Unit of Work, Factory, Strategy), SOLID, Clean Architecture, RBAC, secure coding

AI: Claude Code, GitHub Copilot, Amazon Q Developer, Claude LLM, RAG, Model Context Protocol (MCP), Python

EXPERIENCE

Software Engineer | **NeoSoft** | Mumbai, India | Jul 2025 - Present

Client project for Motilal Oswal (wealth management and broking). Mostly C# and .NET 8, SQL Server 2019, AWS EC2

- Built the React/TypeScript chat UI and ASP.NET Core API for an AI reporting chatbot (Claude, RAG over pgvector) that made report generation for five product lines 80%+ faster than the manual process
- Paired the LLM with rule-based checks for accurate reports and hooked in Python/Scikit-learn and RPA workflows
- Made the AUM, holdings and reporting APIs 50%+ faster with SQL indexes, T-SQL rewrites and EF Core fixes
- Owned the Add Meeting module from requirements with business stakeholders to Azure DevOps CI/CD release and production support. Also reviewed pull requests and mentored junior developers
- In the RM Portal, built CRM modules for client meetings and opportunities in Angular 17+ and React/Next.js, which cut manual data-entry errors by 15%
- Implemented the portal's .NET 8 REST APIs with Entity Framework Core, Repository/Unit of Work and JWT auth
- Created Portfolio Insights dashboards for AUM, revenue and holdings in Angular, with Jasmine/Karma tests
- Developed WealthFlow, the portal's document module on AWS S3, with duplicate checks and an audit trail
- Wrote ASP.NET MVC controllers and Razor views on .NET Framework 4.x
- Used Claude Code and GitHub Copilot for code generation and SQL tuning, which cut development time by about 30%

Software Engineer | **Alphacentrix** | Mumbai, India | Oct 2023 - Jul 2025

Saudi Arabian banking application, partly on Azure Functions, built in Agile sprints with a cross-functional team

- Built .NET 6 microservices in C# on PostgreSQL and SQL Server 2019 for accounts, transactions and financial reporting
- Developed banking workflows with NgRx and Reactive Forms as the app moved from Angular 12 to 18
- Added role-based access control and server-side validation to the ASP.NET Core REST APIs
- Tested the services with xUnit/NUnit and Moq, and Angular components with Jasmine/Karma

Software Engineer (Delivery) | **Mastek Ltd.** | Mumbai, India | Jan 2022 - Oct 2023

Internal enterprise and lending applications on .NET Framework 4.x and .NET Core, some hosted on Azure App Service

- Worked on loan processing and status tracking for a Loan Management System in ASP.NET Web API, Angular and SQL Server, including Aadhaar validation and OTP verification
- Wrote T-SQL stored procedures and PostgreSQL queries with joins and transaction handling
- Handled debugging and production fixes in C# and ASP.NET Core Web API code, and added NUnit and MSTest unit tests

EDUCATION

M.Tech, Computer Engineering | Ganpat University | 2020 - 2022

B.E., Computer Engineering | St John College, Mumbai (University of Mumbai) | 2016 - 2020

CERTIFICATIONS

- Machine Learning with Python: Essentials Badge (IBM)
- .NET Full Stack Foundation Certification (Mastek)
